WHY OMEGA ANALYTICS

- We have the expertise to solve a wide range of business and engineering problems where spatial analysis is critical.
- Our consulting led approach to problem definition and solution identification differentiates us from traditional GIS and surveying companies.
- Partnerships with reputed market and engineering survey firms gives us spatial & non-spatial data acquisition capabilities throughout India .
- Omega Analytics has academic linkages with top scientific and engineering institutions for highly specialized domain knowledge. We have a technical collaboration with Murthy Transportation Consultants, a California (USA) based transportation consulting firm to offer solutions in Transportation Planning and Traffic Engineering.
- Innovative use of mobile and collaborative IT systems enables us to reduce project delivery schedules and maintain seamless communication with clients.
- We maintain very high standards of professional & ethical conduct. Demands of business are always subordinated to our responsibilities as professionals.

TESTIMONIALS

L&T Urban Infrastructure Ltd

Omega Analytics provided a very innovative GIS based solution to support our planning and decision making process. The project was executed with a high degree of professionalism. The quality of the project deliverables and the ability to meet time schedules was commendable.

Stressed Assets Management Group, State Bank of India

We have been using the services of Omega Analytics in the area of digital mapping solutions of real estate. This is a time innovation and has opened up new vistas of opportunity in our work. The information / data provided by them in this regard has been accurate, dependable and very useful.

Karnataka Forest Department

Omega Analytics was engaged as Consultant to Karnataka Forest Department for selecting a vendor for the Department's project - Development and Implementation of Forest Land Management System. Omega Analytics demonstrated a high degree of commitment and professionalism in all tasks assigned to it. Karnataka Forest Department is highly satisfied with the quality of the deliverables and the organization's ability to complete the engagement as per schedule.

Indian Machine Tool Manufacturers Association

Omega Analytics was engaged by Indian Machine Tool Manufacturers Association to do a study titled " Defining the Role of Government in Trans-nationalization efforts of Indian SMEs in the Machine Tool Sector". A total of 90 machine tool manufacturers and component vendors were identified and surveyed by Omega Analytics. Omega Analytics conducted the study with considerable diligence and offered valuable insights and recommendations. The study report prepared by Omega Analytics was submitted by IMTMA to the Department of Scientific & Industrial Research, Govt of India.

NVCF Finance Pvt Ltd

Omega Analytics undertook a detailed review of the business prospects of two of our portfolio companies. The recommendations emanating from the review were instrumental in sharpening the business focus of the two companies and guiding the investment strategy of NVCF. NVCF wishes to record its appreciation of the services rendered by Omega Analytics.
